ABOUT ME

Since I was 14, I thought about programming as a way of expressing myself. Now, I am a detail-oriented, creative programmer, who is capable of creating smooth and compact solutions for the web. I prioritize user experience, teamwork and assertive communication.

TECH STACK

React React Native

Ruby on Rails CSS

Redux TypeScript

Next.js Expo PHP

Git SQL Supabase

Mongo DB Express

Figma Blender

WORK EXPERIENCE

PROSPERO KÖNYVEI Kft. 2024 Feb-2025 May
Administration interface of the company on Ruby on Rails and Next.js stack. Vanilla Js Frontend on its webstore.
Reference: Janzer Frigyes +36305498724

PERSIO INC. 2022 July-2023 April
Experience with a small team, Built complete frontend in Next.js and React Native.

Reference: Dávid Papp +36 30 719 1953

Reference: Sándor Kanalas +36 30 383 9439

PROJECTS

FIFE APP (fifeapp.hu)

A non-profit start-up, my dream-project, which could be a new social-interface for young urban people. Expo framework and Supabase backend.

TEXT A GIRL

An Expo mobile game for Android soon available on Google Play. Uses generative AI for chatting.

VIZSGASZORONGAS.ELTE.HU

A collaborative project made with a psychology research team to assist students, managing exam-related anxiety.

In 2015 and 2018 I was a winner of **Formáld a világod!** competition, in 2025 I was chosen as a member of its jury.

STUDIES
